## JOURNAL OF THE ASSOCIATION OF ENGINEERS, INDIA ([www.aeindia.org.in](http://www.aeindia.org.in))

### The Profile

The Association of Engineers, India is the oldest Professional Body for Engineers and Technologists in India founded by a group of committed engineers in the year of 1919, that is, during the British Raj, to strengthen professional fraternity among Indian engineers, and to foster sustained professional ethics among them. From its very inception, the Association has been promoting various knowledge upgrading and skill developing courses and training programmes for engineers and technically qualified trade persons from weaker section of the society. The Association is also engaged in imparting job specific training to personnel in various disciplines of engineering and trades. The publications of the Association, such as the journal, books and manuals on engineering and related areas are widely acclaimed.

The association has amongst its members all blends of technical personalities from academics and small as well as big organizations. Persons interested in the activities of the Association are requested to become members of The Association of Engineers, India.

The Association of Engineers, India is approaching its 100th year of glorious existence in another few years, and is contemplating **to celebrate its centenary year 2018-2019** in the best possible way. All round support and constructive suggestions of the members are highly solicited.

## Activities of the Association

- a) Arranging seminars, workshops, conferences, courses and training programmes, tailor-made courses for working managers, supervisor and teachers in the field of engineering and management.
- b) Consultancy services in Industries - both in manufacturing and construction, structural, mechanical, electrical and works management including design vetting, in manpower recruitment and placement.
